GUNA SHANMUKA SAIRAM KUNTLA

PROFILE

I am an Electronics and Communication Engineering graduate from Amrita College of Engineering. I am very knowledgeable in HTML, CSS, JavaScript. which develop dynamic websites focused on user experience. I have experience using Arduino for IoT projects, particularly sensor integration and real-time processing. when it comes to innovation, I'm all about pushing my boundaries to learn new technologies. It's like, constantly challenging myself to attain additional skills and knowledge.

KEY SKILLS

- HTML/CSS
- JavaScript
- Python
- Visual Studio Code
- Excel/Word/PowerPoint

CERTIFICATIONS

- Cybersecurity Essentials
- Introduction To Cybersecurity
- Introduction To Packet Tracer
- Front-End Web Development: Get Started
- HTML, CSS, And JavaScript For Web Developers

EDUCATION

Amrita School Of Engineering, Bengaluru.
Electronics and Communication Engineering
2018-2022   6.55 GPA/ 10 GPA

PROJECTS

Underwater Li-Fi Communication for Data Communication using IoT.
Dec 2021 - Jun 2022

Developed Hardware-based Underwater Li-Fi communication which can manage the health of divers and it can transmit the data using light and photodiode and also it can transmit the voice from diver to outsiders.

Home Automation using Arduino, Bluetooth, Wi-Fi, and IR Remote.
Feb 2021 - Apr 2021

Developed a Home Automation which is based on Arduino which can Operate Different home appliances using smartphones via Bluetooth, Wi-Fi, and IR Remote
